

Tuesday 6th January 2026 - Optional home learning for Honeybees.

Dear Honeybees,

Another surprise day at home! I hope you have had a wonderful Christmas break. If you can, please complete the short tasks below. You should be able to do them independently. If you would like to, you can bring in your home learning to show me (or your parents can send a photo if they wish).

1. Draw me a picture or write some sentences (or both!) about a day in the Christmas holidays that was special to you. Why was it special? How did it make you feel?
2. This week in maths we are continuing to practise counting in 2s and 10s. Use some objects from home and count them in twos. How many are there?

Challenge - count in twos to 30. Count in 10s to 100.

3. This half term we are learning about animals and how they survive. What is your favourite animal? Draw a picture.

Have a wonderful day.

I look forward to seeing you all tomorrow!

From Mrs Lea.
