

Bumblebee Class Newsletter

Monday 9th – Friday 13th February 2026

Dear Parents,

Maths

We have been exploring weight this week. We have been using the vocabulary 'heavy', 'light', 'heavier', 'lighter', 'heaviest' and 'lightest' to describe different objects. We have been learning how to use our class scales to weigh classroom objects using cubes. To make sure we weight the objects correctly, we need to make sure the scales are **balanced**.

English

The set two sounds we have learned this week are:

ar start the car	air that's not fair	ir whirl and twirl
----------------------------	-------------------------------	------------------------------

Art

In art this half term we have been learning how to use water colour paints and have been exploring different brush strokes and techniques. This week we have all painted a beautiful picture and I am so impressed by them.

'Show and Tell' – Friday 27th February

Your child may bring in **one, small** item or photos from their half term adventures to share with their friends on Friday 27th February.

Key dates for next term

Monday 23rd February 2026

- INSET DAY

Tuesday 24th February 2026

- Back to school
- PE with Miss Fisher-Smith
- Reading tasks and books changed

Friday 27th February

- Show and Tell

Have a wonderful half term break. I look forward to seeing you all again on Tuesday 24th February.

Kind regards,

Miss Fisher-Smith
Bumblebee Class Teacher
